- I have recently moved into Banalore and I do not know the earlier condition. I live in Indira Nagar, VI main, HAL II stage, near ESI hospital, 560038. In my opinion lot needs to be done in garbage cleaning. a) in places like 13th, 14th 15th cross from 12th main to CMH road the solid waste is scattered at many places. Though some manual cleaning with a cycle rikshaw type vehicle is used to do some cleaning, much remains to be done as the garbage is never fully removed. It is urgently required to deploy more mechanisation in doing the cleaning to achieve thorough and full cleaning of all garbages on the streets which will lead to better health for all in the nearby areas and a pleasant surroundings. b) Main Channel an open drain of huge proportions flows nearby. In my opinion ROBOTS must be used to dredge the garbage accumulated in them to keep the nala clean. This will lead to fewer musquitos in the locality and fewer health problems for the nearby residents. SVS Iyer
